

## **Clean Start for Business in 2014**

This new year holds a lot of promise for Dublin businesses, and while no one can accurately predict what 2014 will bring there is an awful lot of talk about business recovery and a reinvigorated economy.

With movement beginning again in the building sector, and retail starting to show signs of improved health, it's time to embrace the opportunities of a brighter looking business year.

With affordable and top quality cleaning services from Office Clean Ireland you can put a fresh shine of your office's appearance and create an oasis of cleanliness in the heart of Dublin, for employees, clients, and all your visitors.

Office productivity and morale has been shown to be positively affected by a clean and tidy work environment. Files are easily found, workplace hazards (such as those document boxes stacked beside the water cooler) are removed, as are harmful bacteria, allergens, and dirt.

A clean start is a fresh start, and our regular office cleaners will wipe all surfaces, vacuum carpeting, clean kitchens and washrooms, empty bins, and get rid of the everyday dirt and grime so that airborne particles and unpleasant odours don't harm the air quality in your premises. Your staff will have fewer distractions, and your clients will see that you like to keep your business ship shape!

Our dedicated office cleaning team operates day and night, so we can arrange regular cleaning times at your convenience, allowing the work to be carried out during the least busy hours on your premises and allowing you the satisfaction of entering a clean and orderly office following our cleaning visits.

You can expect a quality, seamless service from Office Clean Ireland, and our rolling 30 day contracts remain flexible and don't tie you into any agreement you don't require. We proudly operate with a 95% client retention rate year after year, so many, many of our customers have tried out a new start with Dublin Office Cleaning and have happily kept us on ever since!

Untidy kitchen areas and unhygienic washrooms and toilets are a blight on any business and a source of upset and irritation for employees. Our trained, thorough office cleaners will consign any office hygiene problems to the past. With our Janitorial Supply and Washroom Services you needn't ever run low on toilet paper or liquid soap and we can provide, service, and replace necessities such as feminine hygiene units and c-fold paper towel dispensers.

With a promising outlook for Dublin business in 2014, make sure that your business has the right professional look for all to see. Cost effective office cleaning, with pricing and services to match every setting and every budget, our exceptional quality is never compromised.
